26 mm and 14 mm eye pins; an adjusting chain;
a thin chain (the earrings); a metal crimp bead
(KR); a carabiner; earring hooks;

a 0.20 mm nylon line; a thin needle; scissors;
snipping pliers; needle nose pliers; a 0.38 mm
wire strand

Difficulty: ●●●●●

Procedure:

Step 1:

Tie a rocaille onto the end of the line
as a stop bead (fig. no. 1a). String 4x PB1
(fig. nos. 1b + 1c). Thread the line through
them one more time (fig. nos. 1d + 1e).
Tie off the line. Pull the ends into the holes
and cut them off (fig. no. 1f).

Step 2:

Make a total of 19 four-petal flowers.
6x PB1, 8x from PB2 and 5x from PB3.

Step 3:

String 1x IM8, 1x IM4, 1x flower and 1x IM4
onto an eye pin. Tighten (fig. no. 2a).
Grip the end of the wire between the points
of the needle nose pliers. Twist it around
the points. Locate the eye centrally above
the hole by gently twisting the wire back at
the edge of the hole (fig. no. 2b).

Step 4:

Set aside 2 flowers made from PB3 for
the earrings (fig. no. 3a). Mix up the other
flowers and string them onto the necklace
in an arbitrary order (fig. no. 3b).

Step 5:

Cut off about 60 cm of wire.
Secure the end of the wire by crimping
the KR. String 1x IM4, 1x KR, 1x IM6,
1x KR and 16x IM8 in green (fig. no. 4a).
String the flowers and string
1x IM6 between them in green and blue
alternately (fig. no. 4b). String the second
side in the opposite order, this time in blue
(fig. no. 4c).

Step 6:

Create a loop on the wire. String 4x R,
a carabiner (fig. no. 5a) or the 7 cm adjusting
chain and 4x R (fig. no. 5b). Thread the wire
back through the IM4, KR, IM6 and IM8.
Tighten. Crimp the KR. Snip the wire.
