a thread in the color of the beads and seed beads; a needle; pink felt; colored buckskin for overcasting; a headband wrapped in a white ribbon (you can wrap the headband yourself using a 4 mm ribbon or soutache in the color of the beads and seed beads)

Difficulty: ●●●●●

Technique: basic beadweaving, gluing, weaving around

Procedure:

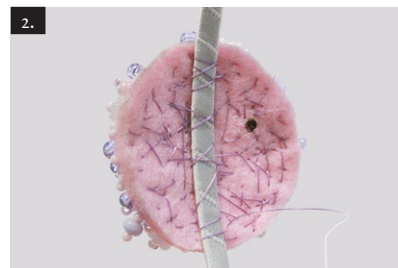

Step 1:

Cut a circle of felt with a diameter of 4 cm. Cut off ca 1 m of thread and gradually begin to fill in the circle from the centre to the edge starting with the largest beads and seed beads. Sew on several beads at once, so that the decoration has greater volume (fig. nos. 1a - 1e).

Step 2:

Once you have sewn the entire circle with beads and seed beads, sew the circle onto the headband using the remainder of the thread or a new thread (fig. no. 2).

Step 3:

Glue on the circle of buckskin (or leather) and overcast the edge (fig. nos. 3a - 3e). The beautiful headband in delicate colors is finished!
