PRECIOSA Twin™ for all children

Figures and toys made from the seed beads of the PRECIOSA Traditional Czech Beads™ brand can also be fun. So let us also keep children in mind when making seed bead products and create cute seed bead figures and toys which can become pendants on a simple bracelet or necklace or pendants for keys or a mobile telephone. Preciosa Ornela has prepared a set of seed bead pendants for children's costume jewelry. These sewn seed bead figures and toys will please both small and bigger boys and girls. The PRECIOSA Twin™ seed bead is once again the main construction element, but this time for the creation of stylised shapes which have been inspired by children's toys, figures and animals. The simple arrangement and innovative connection of the seed beads gently stylises and copies the popular motifs. Preciosa Ornela offers only the basic approaches here, because an infinite number of variants will arise from your own imagination or your children's wishes. Preciosa Ornela wishes you happy bead work.

various colors

PRECIOSA Pressed Beads (PB)
111 19 001; 5 mm; 8 mm;
various colors

- a 0.20 mm nylon line, a chain, connecting rings, a snap hook, flat nose pliers

Difficulty: ●●●●●

Technique: basic beadweaving

Procedure:

Prepare the necessary number of seed beads and beads and string them according to the individual pictures. Choose the colours according to your own design.

Proceed in the direction denoted by the arrows. Do not forget the connecting rings which you should string on the line at the place marked in the pictures. Then pass the line back into the hole of the seed bead or bead. Before completing the pendant, carefully straighten the shape, tighten the line and finish off the product with a strong surgeon's knot. Pull the end of the line into the holes of the nearest seed beads and cut it. You can use the connecting ring to connect the individual pendants to a chain, the length of which you can modify as required, and finish with a snap hook.

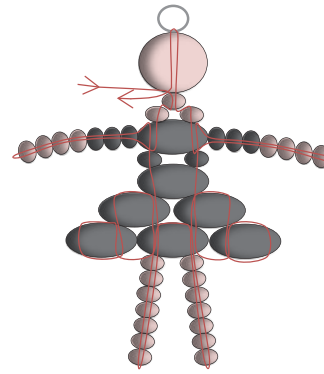

The Doll

Material: 12x T, 32x R10 (it is also possible to use R9 in the sleeves), 1x PB5

The Ballet Dancer

Material: 7x T, 33x R10, 1x PB5
