COROLLA SUPER-TWISTED BRACELET

SEED BEAD BRACELET COROLLA

We present a further unique seed bead from the wide PRECIOSA ORNELA range. PRECIOSA Corolla, a Czech seed bead, which is sure to arouse further attention, has a unique shape. It is made by cutting glass tubes with a four-leafed clover cross section. The surface of this seed bead can be straight or twisted. The shiny gleams of the adjacent surfaces are split by a central line in both variants. This is best used with color painting. You will be able to assess this effect thanks to the bracelet presented here. You can find more information about this seed bead at: <http://preciosa-ornela.com/perlicky-corolla>

Materials and Tools:

-  PRECIOSA Corolla Super Twisted (**CST**)
321 67 001, 10 x 3.5 mm
-  PRECIOSA roccaille (**R8**)
331 19 001, 8/0, 48025 (58142)
-  PRECIOSA roccaille (**R10**)
331 29 001, 10/0, 27010
-  Imitation pearls (**IP**)
131 19 001, 6 mm, 70028

Metal parts:

- a eye pin, 50 mm, copper (it can be shortened)
- an eye pin, 14 mm, copper
- a 6 mm glass bead, purple

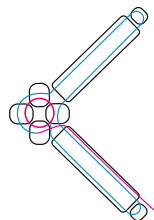

Tools:

- nylon line, 0.20 mm
- a long thin needle
- flat nosed pliers (to flatten the beginning of the nylon)
- needle nose pliers
- a 25 cm long and 1.5 cm wide ribbon

Procedure:

The bracelet can be begun from two parts. Create part of the cross or the rhomboid and gradually add further bugles and use the roccailles to slant it.

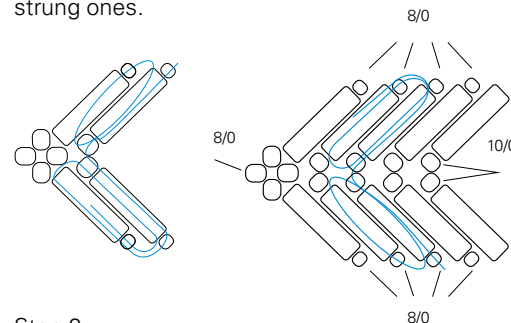

Step 1:

The cross – string 4x **R8** and tie them into a cross. String 1x **CST10** and 1x **R8** and return to the bugle. Pass the line through one of the first 4 **R8**. Add 1x **CST10** and 1x **R8** and then return to the bugle. Circumvent the remaining roccailles from the original 4 and return to the first bugle. Pass the line through the **CST10** and **R8**. Add 1x **CST10** and 1x **R8**. Once again pass the line through the first **CST10**, the **R8** and the added **CST10** and **R8**. Add a new 1x **R8** and 1x **CST10** and **R8** and an added **CST10** with a roccaille. Add a new 1x **R10** and 1x **CST10** and pass the line through the roccaille and the bugle which has already been strung from the second half and through the newly added seed beads. Add 1x **CST10** and 1x **R8**, connect them with the original ones and pass the line through them once again.

COROLLA SUPER-TWISTED BRACELET

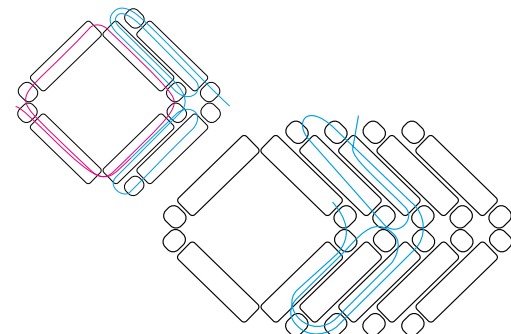

SEED BEAD BRACELET COROLLA

Add 1x **CST10** and 1x **R8** from the second half. Add it to the original ones and pass the line through it again. Repeat this procedure up to the rhomboid, where a bugle and 2x **CST10** are added and pass the line through the original seed beads and also through half the newly strung ones.

Step 2:

The rhomboid – string 1x **CST10** and 1x **R8** and pass the line through half the seed beads from the rhomboid again. Go to the second half, add 1x **R8** and 1x **CST10** and connect them with the original ones and pass the line through the new strung beads. Add 2x **CST10** and **R8**, pass the line through original beads, including with the 10/0 roccaille and the newly strung beads. Add 1x **CST10** and 1x **R8**, pass the line through the original and newly strung beads and add 1x **R8** and 1x **CST10** and connect them with the original ones from this half. Continue in the same way. Alternate the fragments with the various slants of the bugles.

Step 3:

Connect the two strips. Pass the line through the outer **R8**, while alternating the strips and adding a further 1x **R8** between the **R**. Upon returning, pass the line back through the added **R**. Tie the end of the line and pull it in. The end tabs are missing. String the long eye pin onto the outer roccailles and add **R8** between them. Connect the beads onto the eyes. Pass the ribbon through the tab and tie the ribbon.
